

Shy Water

100 Monkeys

Well old Dan Tanengraph
You can keep your cold dead stare
Your pretty lady's waiting out
In the coal stained air
And I've watched your hair turn grey
Throughout the course of
One fateful day And she got
Shy water in her eyes
And she got
Shy water in her eyes Well on that creaky wooden porch
You can think about what you've lost
While some nurse you don't know
Brings you paper cups full of pills
Well your pretty lady's somewhere
Lonely and turning grey
Oh, what a mistake you have made And she got
Shy water in her eyes
And she got
Shy water in her eyes Well you can stick to your guns if you please
It don't bother me, oh no
You can stick to your guns if you need
And you need Well if there's a moral here that's to be learned
It's not to let a good thing pass you by
Well right now you're staring straight ahead
Beside some girl with shy water in her eyes And she got
Shy water in her eyes
And she got
Shy water in her eyes Well you can stick to your guns if you please
It don't bother me, oh no
