

Friday Night

Loverboy

Burning up the miles, there's a full moon out tonight
I've got a high-heel Venus, doing twice the speed of light
Crank it up through the gears--see what she can do
Women and cars--everything they say is trueStand in line - No! No!
Wasting time - No
Friday night, Friday night
I just got paid--no sleep 'til Monday
Friday night, Friday night
Who cares, it's only money
I've been bidin' my time, listen to the Boss man scream
Workin' forty hours, payin' for this dream machine
'Cause I'm living proof - every mad-dog has his day
I'm going to find me a woman--head out on the Old HighwayFriday night, Friday night
Friday night, Friday night
It's only money
Friday night, Friday night
I just got paid, no sleep 'til Monday
Friday night, Friday night
Who cares it's only money[Repeat]
Friday night, Friday night
