Reel Big Fish

Was gonna call my friends and get 'em all together
I was gonna go and start a band
But everything I wanna do it's already been done
Why would I wanna go and do it again? Was gonna call my friends and get 'em all together
I was gonna go and start a band
But everything I wanna do it's already been done
Why would I wanna go and do it again?
Everybody, everybody, everybody plays guitar Well, she's so cute if you know what I mean
She's the cutest little girl that I've ever seen
Maybe she'll like me if I play guitar
Maybe she'll like me if I'm the lead singer, yeah, oh yeah There's so many bands and we all look the same
Well, I just saw them up on stage
And I don't remember how good they played
'Cause they can't sing but I'd pay just to see their face
Yeah, yeah, yeah, yeah Everybody's in a band yeah, yeah, yeah
Have you heard of my band? Ooh, ooh, ooh
We try to be different
But I guess that's nothing new
