It's All Good

Nivea

(It's all good)
When ya down they gonna hate you like that used to
And when you're up they gonna love you like they used to
(It's all good)
When your lookin' for your friends
Takin' all that shit ain't got nothin' on your rent
(It's all good)
Now they just smilin' in your face
Checkin' your account try na see how much to take
(It's all good)
Hey hommie I ain't mad at cha
Just to let you know I kinda feel bad for you
How ya gonna try and act like were cool
Where were you when I needed to know the truth
Everybody out for self and nothin' else
Use you all up till ain't nothin' left
They can't take what's for ya
Not even cricket ass lawyers
Still in the same place 'cos your still you
Now I'm lookin' at dem haters in my rear view
I've been around the world and back again
Still up in the coop still leanin' back
Through all the pain I've learned some things
Had to get some dirt of my shoulder up at the laundromat
Since I've been away a lot has changed
Go out of my way so you can see me smile
To committed to erase you now I got a straight boo
I put that on my unborn child
(It's all good)
When ya down they gonna hate you like that used to
And when you're up they gonna love you like they used to
(It's all good)
When your lookin' for your friends
Takin' all that shit ain't got nothin' on your rent
(It's all good)
Now they just smilin' in your face
Checkin' your account try na see how much to take

(It's all good)

Hey hommie I ain't mad at cha
Just to let you know I kinda feel bad for you
People will sell there souls to get where ya at
But if they seen what I seen they'd be runnin' back
Wanted to cry for so long
03 left the game I was so gone
Whatcha thought was really somethin'
Spent all the time standin' next to nothin'
I see the smoke in the mirror has finally cleared up
I'm lookin' at you haters in my rear view
Ive been around the world and back again
Still up in the coop still leanin' back
Through all the pain I've learned some things
Had to get some dirt of my shoulder up at the laundromat
Since I've been away a lot has changed
Go out of my way so you can see me smile
To committed to erase you now I got a straight boo
I put that on my unborn child
(It's all good)
When ya down they gonna hate you like that used to
And when you're up they gonna love you like they used to
(It's all good)
When your lookin' for your friends
Takin' all that shit ain't got nothin' on your rent
(It's all good)
Now they just smilin' in your face
Checkin' your account try na see how much to take
(It's all good)
Hey hommie I ain't mad at cha
Just to let you know I kinda feel bad for you
Bad for you it's all good, it's all good
'Cos what goes around comes back around
I'm doing good I'm holdin' it down
It's all good
