

# Heart On a String

## Jason Isbell & The 400 Unit

I was out there all alone  
I was searching for a friend  
You saw my need and you came along  
With that charm you took me in Then one night, you captured my heart  
Turned the smoke into a flame Whoa, I can't free my heart from you, baby  
'Cause you keep it hanging on your string  
No, I can't free my heart from you, baby  
'Cause you keep it hanging on your string That way of loving is my weakness  
You made me yours, body and soul  
My mind tells me I should leave this  
But my heart can't let me go  
You tied me down to you and you went away  
Turned all of my pleasure into pain No, I can't free my heart from you, baby  
'Cause you keep it hanging on your string  
Whoa, I can't free my heart from you, baby  
'Cause you keep it hanging on your string Every time I try to break loose  
That's when you tie a knot on your string  
I can't hold up to what I'm going through  
My heart is weakening from the strain I know, I know if you untied me, baby  
I'd be bound to you just the same God, I can't free my heart from you, baby  
If you keep it hanging on your string  
No, I can't free my heart from you, baby  
If you keep it hanging on your string  
Whoa, I can't free my heart from you, baby  
If you keep it hanging on your string  
Whoa, I can't free my heart from you, baby  
'Cause you keep it hanging on your string, on your string
