

Be the One

Ne-Yo

Ey I'm not the one to start no trouble
I'm not the one to throw no salt
But you're standing out here crying
I watched as that dude drove off
Assuming that that's your man
Assuming that you're just fault
I don't know the whole story
But assuming it wasn't your faultBaby since he just won't do it right
Ey, let me be the one
Let me show you what real love is like
And do the things he should have done
Baby since he just won't do it right
Let me be the one
Let me show you what real love is like
And do the things he should have done
Let me be the one, eyNow I know that you don't know me
But hear what I'm talking bout
'Cause when I look at you what I see
Is worth tryna work it out
Now I don't know him so I can't say that he's a bad dude
But is he really trying? I think not
And all I'm saying is if he won't make the effort
Let me give it a shotBaby since he just won't do it right
Ey, let me be the one
Let me show you what real love is like
And do the things he should have done
Baby since he just won't do it right
Ey, let me be the one
Let me show what real love is like
And do the things he should have done ohooOoh, let me be what you want
Let me be what he's not
Let me show you real love
'Cause real love is all I got
Ohh, come on here off the rain
Come let me do it right
Come let me change your heart
And change your life, ohhGirl let me be the one, be the one
Girl let me be the one, be the one
Girl let me be the one, be the one

Girl let me be the one, be the one Ohh, baby since he just won't do it right

Let me be the one

Let me show you what real love is like

And do the things he should have done

Baby since he just won't do it right

Let me be the one

Let me show you what real love is like

And do the things he should have done

Hah, let me be the one
