

# She Used to Say That to Me

Wade Hayes

Let's take a rest  
Your kisses take my breath  
You are the best  
It's never been like thisShe used to say that to me  
Over and over so sweet  
She'll tell you she'll never leave  
She used to say that to meIt thrills you so  
When she whispers soft and low  
Please hold me tight  
I need your love tonightShe used to say that to me  
Over and over so sweet  
She'll tell you she'll never leave  
She used to say that to meI'm yours, she sighs  
And she means it at the time  
But someday she'll go  
If you're wondering how I knowShe used to say that to me  
Over and over so sweet  
She'll tell you she'll never leave  
She used to say thatShe used to say that to me  
Over and over so sweet  
She'll tell you she'll never leave  
She used to say that to me  
She used to say that to me
