

# Bad Habit

## Darling Parade

I should have learned my lesson  
But what was I supposed to do  
You brought a reputation  
And I'm just not over you  
Cause you let me fall  
You let me fall so far  
Uuuh  
You had it all  
Now I don't know where you are Oo oo I've just about had it with you  
I'm so sick of all your games  
I don't know what I was thinking  
You're just a bad habit and  
and I've just about had it with you I wish I left you alone  
Never let you get close to me  
I was so much better on my own  
You're just a sad song I don't need  
Cause you let me fall  
you let me fall so far  
Uuuh  
You had it all  
Now I don't know where you are Oo oo I've just about had it with you  
I'm so sick of all your games  
I don't know what I was thinking  
You're just a bad habit  
and I've just about had it with you Wooo I thought you were different  
No, you're all the same  
Don't know what I was thinking  
You're just a bad habit and  
I've just about had it with you And after all the wrongs  
When it's all said and done  
I should have seen this coming on  
Should have known all along  
Now the curtain's closed  
We can all go home  
Never make the same mistakes  
It's almost over Oo oo I've just about had it with you  
I'm so sick of all your games  
I don't know what I was thinking  
You're just a bad habit

and I've just about had it with youWooo I thought you were different

No, you're all the same

And now, now I can see

You're just a bad habit and

I've just about had it with you

I've just about had it with you
