

You Don't Know Love

Editors

You don't know love like you used to
You don't feel love like you did before
You ran with the dead today
With the moles from the CIA
They see more than you ever see
Headlights in your rear view mirror
A panther's eyes as he preys on fear
You hunt for love, you electioneer
You ran with the dead today
Through the cemeteries where ghosts still play
The more you ran, look out further away
One look and a soaring sight
Every little thing you die to hide
You were the truth when you lied
You don't know love like you used to
You don't feel love like you did before
You don't know love like you used to
You don't feel love like you did before
You don't know love like you used to
You don't feel love like you did before
You don't know love like you used to
You don't feel love like you did before
You don't feel love like you used to
You don't feel love like you did before
You don't know love like you used to
