

# Beyond Love

## Beach House

Beyond love  
The first thing that I do before I get into your house  
I'm gonna tear off all the petals  
From the rose that's in your mouth Beyond love  
I wanted to find ever since I didn't understand  
They take the simple things inside you  
And put nightmares in your hands Beyond love  
This thing comes to me  
Heartbreak did this  
He was made to believe  
That he should live without it  
Our nerves would've seen  
No change in his  
Vision sprung into dreams  
Of a world left without it I really wanna know  
I really do breathe  
We really do breathe  
We really wanna know The last thing that she sees  
Before they turn off all the lights was there  
Net up in the corner with the spiders made of night  
We really wanna know  
Beyond love  
Our nerves would've seen  
And I can't live without it  
Could you ever believe  
Beyond love? I really wanna know  
I really wanna know
