Purse Snatchaz

Onyx

There's no sunshine in the city
That's the way it's goin' down
People kill and people dyin'
Every time I turn around
There's no sunshine
I roll wit purse snatchaz, the villains and trespassers
Criminalist and parole violators
I raidin' wit regulators, invaded the instigators
Passed the procrastinators, rolled on retaliators
Roamin' at home wit burglars, party wit murderers
Scandal big reelers, I sell coke to dope dealers
Ask the stash dealers, so rash the gat peelers
The time behind bars, ridin' in stolen cars
Forty deuce six, posin hard, rollin' large
Big pockets that pay, pistol black is big smackers
Back up the ally, attack us, waitin' for the crackers
Smugglers, muggers in the gutters wit ruck cutters
Runnin' up on niggas for butter lovers, or whatever
Can't take it for hoppers cockers by watchin' cops and robbers
But kid it's, kinda fittest, quit this, money get this
For beaters wit heaters to bleed us and speed us and two seaters
Crime essence and crime confessions, yea pure precious
My guess is good as yours, while niggas be takin' draws
Rapers and zipper rippers take rappers and over actors
Bottle throwers, the Buddha rollers, I roll wit cigar smoke flowers
Boilers wit playas, slashes bashes Mercedes
Always solicit, and pullin' out on project business
Schemin' and scandalous, the dreamers and pan handlers
Ready to run up in Rockefeller, put the glock in the teller
And tell the bitch to give the money and hurry up
There's no sunshine in the city
That's the way it's goin' down
People kill and people dyin'
Every time I turn around
To me, USG livin' is one gigantic ring of concealin'
Double dealin', drug fiendin', sellin' and schemin'
On the next beam, fleein' from the cops, caught wit beings
Illegal operatin', law violatin' and death escalatin'

We all need our dollars straighten, bro we can't be toleratin'

Man that's frustratin', that's why we be demonstratin'
How we be law breakin', cash takin', drug jugglin'
Hand to hand, stand and lookout
Money struck out to keep 'em strugglin'
Embezzlin', extortin', man slaughter and assaultin'
Mass shootin', slugs stabbin', gangs feudin' and females boostin'
For child supportin' or self done abortion
Everythin' costin', we all lustin' for this fortune
So we'll still be rowdy and riotin' and lookin'
Every group until we see some more improvin'
It'll be mad human deliciously, can't completion
'Cuz every day is killin' season
There's no sunshine in the city
That's the way it's goin' down
People kill and people dyin'
Every time I turn around
I pledge allegiance to the street and blame God
For the creation of this pitiful Earth, that's filled wit temptation
Birth was my invitation, death will be initiation
Now I just got a probation so wish me congratulation
But I'm under investigation for psychic evaluation
Facin' incarceration, isolation over the color discrimination
So I need the participation the Caucasian assassination
Time is wastin', it's a sticky situation
Tryin' to stop a reproduction to come off a population
And there's no exaggeration so whoever in an association
Wit the nigga retaliation that needs a total cooperation
When hours of desperation on for ya information
A confrontation will be fought by the younger generation
'Cuz we got determination, all we need is organization
So I use my concentration wit a Jim Crow education
'Cuz history repeats itself, ya destination ya plantation
All come as loud as nation that builds upon a communication
And then without a explanation, a hesitation
We have a reservation to elite from a tree my decorations
So because of these altercations, we need to make some me duration's
That's being the manipulation of this whole god damn nation
And witness how the warn indication, so it's the Indian conversation
