

You Can't Have None of That

Washboard Sam

If I catch you with my woman
I'll sting you like a bee
Don't try to start nothin'
'Cause that belongs to me You can't have none a-that
You can't have none a-that
Just keep your mind off it
You can't have none of that Yo' eyes may shine
And yo' teeth may grit
But none of this doggone, lovin'
Man, will you ever get You can't have none of that
You can't have none of that
Just keep your mind off it
You can't have none of that It took me six long months
To finally get her right
Now, you wanna do the same thing
In just one night You can't have none of that
You can't have none of that
Just keep your mind off it
You can't have none of that Oh now play it, boy' (sax & instrumental) Man, you can't have none a-that If you
fool around with my baby
I swear to my heart
I'll take my two bare hands, an
I will tear you apart You can't have none of that
You can't have none of that
Just keep your mind off it
You can't have none of that I don't mind her talkin' to you
Man, nice an sweet
But don't ask for no bread
Neither, try to take no meat You can't have none a-that
You can't have none of that
Just keep your mind off it
You can't have none of that.~
