

Know / Vibes (feat. ELHAE)

Eric Bellinger

They say
Nothing lasts forever
(Yeah)
So I know
Time is of the essence
(Yeah)
So I'ma get right to it
I'ma get right to it
I'ma get right
I'ma just slide through it
I'ma just slide through it
I'ma just slide through
And have you drippin like the faucet baby
Make you throw it back and toss it crazy
You should know about it
(Baby you should know that I got it all)
Yeah you should know about it
(Girl you should know that it's you that I want)
Said you should know about it
(Wake up and do it again in the morning)
Yeah you should know about it
(Baby girl you should know about it)
Ohhhhh oh na na na na na na na
Baby girl you should know about it
Ohhhhh oh na na na na na na na
Baby girl you should know about it
They say
(They say, they say, they say)
Nothing lasts forever
(Yeah)
So right now
Let's make a movie
I'll be your director
(Yeah)
I just wanna get inside
I don't wanna kill the vibe
And we ain't got nothin but time
Goddamn, you so damn fine
Slide up and down on that pole

And girl don't ask me no questions
You should know
You should know about it
(Baby you should know that I got it all)
Yeah you should know about it
(You should know, you should know, you should know)
Said you should know about it
(Wake up and do it again in the morning)
Yeah you should know about it
(Baby girl you should know about it)
Ohhhhhh oh na na na na na na na
Baby girl you should know about it
Ohhhhhh oh na na na na na na na
Baby girl you should know about it
Yeah you should know

I'm lovin your vibe
(F'n with her body)
Vibe, ohhhhhh
We laid up in our zone
We ain't worried about our phones
We just posted up so high off paper
planes
(Paper planes)
Swear every time we kick it
It always be so different
Nothing that we ever do is the same
It don't even matter if we roll up
Or we roll out
Cause the feeling still get me high
Love the way we don't ever have to try
Girl I'm loving your vibe (vibe)
I can never get enough of your vibe
I can never get enough of your
Girl the way we vibie it be the sh! t
(Oh yeah)
The way we vibin, we can never miss
(Oh yeah)
I don't ever want to leave from this, vibe
It feels like a dream

To me every time I'm withu
You take my mind to a place that I never imagined could ever be true
Let's go there
What if we could vibe out there
Maybe one day in another life
Girl I'm loving your vibe (vibe)
I can never get enough of your vibe
I can never get enough of your
Girl the way we vibe it be the sh! t
(Oh yeah)
The way we vibin, we could never miss
(Oh yeah)
I don't ever want to leave from this
Vibe
