

Kids

Childish Gambino

[Hook]

If we were kids

I'd want to give you everything that you would want

Those other boys

They gave you toys, but all they wanna do is Keep up

Keep up, keep up, keep up

That's all I want, keep up

Keep up with me, keep up Keep up

Keep up, keep up, keep up

That's all I want, keep up

Keep up with me, keep up [Verse 1]

I guess I'm fucking now

I'm getting used to it

It's cause I shine, and I ain't gotta use a crucifix

Fuck the fussing and fighting and arguing to this and that

And "why you bein' mean to me Donald?" I never texted back I know it's comin' quick, wishin' I could fast forward

Tell these nice girls they're the reason that I'm an asshole

Omega to Alpha male, because of that dollar bill

When I worked the mail room I ain't have a shot in hell I called her ass for two months and heard shit from her

These girls couldn't care less when the chips under

The chips are up and on my shoulder, you heard me?

I take it out on girls who don't even deserve it The girls I tried to hit last year, I still might

Karmas a bitch who doesn't suck, but I still like

If we were kids I had the black k-swiss and Reebok

If we were kids I wouldn't act like this but we not [Hook]

If we were kids

I'd want to give you everything that you would want

Those other boys

They gave you toys, but all they wanna do is Keep up

Keep up, keep up, keep up

That's all I want, keep up

Keep up with me, keep up Keep up

Keep up, keep up, keep up

That's all I want, keep up

Keep up with me, keep up [Verse 2]

You made a mistake

These dudes man you bathing in apes

Finding you is like finding Asians I hate

But they say I got a fetish, nah I'm skipping all of it
Black and white girls come with a lot of politics That's all I was saying
I'm a proud man
They wanna holla when they see your name on Soundscan
Her name Mercedes but she push a brown focus
And she's doing coke in front of me, but act like I don't notice
"There any breakage in that Trojan?"
She see what she wanna see
So I make her take Plan B in front of me Women talk shit on men like all day
But it's Pete Wentz, goes both ways
They too busy stabbing hoes like OJ
They too busy trapping pros like Kobe
The only thing I put before me is do re
If you had told me the truth we'd be okay [Hook]
If we were kids
I'd want to give you everything that you would want
Those other boys
They gave you toys, but all they wanna do is Keep up
Keep up, keep up, keep up
That's all I want, keep up
Keep up with me, keep up Keep up
Keep up, keep up, keep up
That's all I want, keep up
Keep up with me, keep up [Outro]
It's alright
It's okay
It's alright
It's okay girl, it's okay
