

# Girl in the Life Magazine

## Boyz II Men

I fell in love with the girl in the picture  
That I use to keep  
Carried her 'round in the back of my pocket  
She was always with me  
I imagine that I was a man of importance  
And she had a fancy for me And I use to dream she would call  
Crying her eyes out  
She had an obsession with me  
I was the love of her life  
And she was all mine The girl in the Life magazine The first time we met in an aisle at the market  
She was staring at me  
I knew even then we would share something special  
And it was like chemistry  
I fell in love from the moment I saw her  
So I took her straight home with me And that's where I'd dream  
She would step right out of the picture  
And spend a whole evening with me  
And oh how she hated to go  
Back to her picture The girl in the Life magazine All of my friends use to laugh  
Said, I was certifiably mad  
Till the day, that she came  
And she blew them away  
And asked me if I'd be her man It seems, that she went and fell  
In love with my letters  
She say's, she's been looking for me  
Hence all the story ends well  
We end up together The girl in the Life magazine  
The girl in the Life magazine
