

# Endless Nights (Re-Recorded)

Eddie Money

Lover, I just can't believe it's turned  
You're tearing my life apart now  
There's no simple answer  
Here I am, just standing in circles And the logic is turning me 'round  
My mind keeps holding only one thought: When you gonna call? I think it's worth the time  
How you gonna change all these endless nights?  
If you could stop leading me around  
You're never gonna change all these endless nights Tender, the way that you touch me now  
Taking our fears away now  
There won't be a reason  
Just a well-rehearsed explanation Though the love that is turning inside  
Keeps on twisting, twisting my mind When you gonna call? I think it's worth the time  
How you gonna change all these endless nights?  
If you could stop leading me around  
You're never gonna change all these endless  
Endless nights  
I wish that you could change all these endless  
Endless nights And the hope that is holding me here  
Is starting to die - oh, no, is it ever gonna stop? When you gonna call? I think it's worth the time  
How you gonna change all these endless nights?  
If you could stop leading me around  
You're never gonna change all these endless  
Endless nights  
I wish that you could change all these endless  
Endless nights  
All these endless, endless nights, now When you gonna call? I think it's worth the time  
I wish that you would call, now  
When you gonna change all these endless  
Endless nights?
