We Gonna Get High Together

Tampa Red

There are you and here am I
We both be silly just to sit and sigh
Okie tokie darling, you and I
Are gonna get high togetherEvery time I look at you
I bet you think that we could do
Drink up dear, and don't be blue
We're gonna get high togetherWhen the band began to play
And the gang began to sway
Then we will begin to lay
Just messing around, darling, ducking or downThen after drinking some of this and that
I made you slide to take you to my flat
Turn out the light and make you tight like that
We're gonna get high together, yeah, yeahThere are you and here am I
We would be silly just to sit and sigh
Okie tokie darling, you and I
Are gonna get high togetherEvery time I look at you
I bet you think that we could do
Drink up dear, and don't be blue
We're gonna get high togetherWhen the band began to play
And the gang began to sway
Then we will begin to lay
Just messing around, darling, ducking or downThen after drinking some of this and that
I made you slide to take you to my flat
Turn out the light and make you tight like that
We're gonna get high together, yeah
