## Deeds of Flesh

Modified  
Corporal carnage  
To assume the shape of  
A madman's  
Disposition  
To be displayedThe gross  
Unclothed body  
The eyes replaced with genitals  
His eyes  
His eyes replaced with his testiclesThe lower intestinal region  
Is carved into vacarnagecarved into vacarnage  
Nasal sewed to the stomach  
Carved a hole in his stomach  
Smelling the freshly carved innards  
Carved away he was so dementedThe family is overwhelmed  
By this gross catastrophe  
Ready to kill the mortician  
And his...and his modified fantasiesAkin and dried meat  
Of the freshly sucked skull  
Every death is  
His financial gain  
Paying for the speed which twists his brains  
To perform  
Modified corporal carnageCarved away he was so dementedModified Corporal carnage  
To assume the shape of  
A madman's  
Disposition  
To be displayedAt a funeral burialThe family is overwhelmed  
By this gross catastrophe  
Ready to kill the mortician  
And his...and his modified fantasies
