To Be With You

James Reed

I can't pronounce it, don't even understand
The words I mean, my tongue's tied up around it
My brain is so tired but my heart is so warm
I wanna be with you to talk with you
To sleep with you, most of all
To make love to you
Last night I dreamed about it, the rooms in these hotels
Are the same around the world, I could really do without it
I'll only hate myself if I take another girl
I wanna be with you, I wanna talk with you
I wanna sleep with you, most of all
To make love to you
Oh, if I ever get home again, if you could ever
Do the same thing too, I could open up my soul again
I have to get this message to you
I wanna be with you, I wanna talk with you
I wanna sleep with you, I wanna make love to you
Love to you, you've got that feeling inside
And you know my joy just can't hide
