Live for the Day

Trixter

Live for the day
I met an old man at the bar last night
He told me stories about the war and life
Sticks are made on but it's alright
They won't shoot and I'll tell you why
CHORUS
Live for the day (Live for the day)
'cause tomorrow may never come
Live for the day (Live for the day)
'cause good times and bad times for everyone
So live for the day
Just sent me something that ? can see
Come every moment I'll send you free
And tell your friends that you'll always be
And if you've done wrong
Just say you'll sorry
CHORUS
Live for the day (Live for the day)
'cause tomorrow may never come
Live for the day (Live for the day)
'cause good times and bad times for everyone
So live for the day
I Believe
I can see
Good times space for every ?
It's been sold
I've been told
You'll find it hoping
You'll find it
You'll find it shinning
Yeah
So call your mother
Just to say hello
Hug your kids so much
They'll know
And tell your friend that you'll always be
If you've done wrong
Then say you'll sorry
CHORUS

Live for the day (Live for the day)
'cause tomorrow may never come
Live for the day (Live for the day)
'cause good times and bad times for everyone
So live for the days of your life
