Simon

Elf Power

Simon take your time dear,
Don't flown away too far,
I think about you all the time,
I wonder where you are,
I know you've led a billion lives,
I've seen your new disguiseHe was the bird with the candybar head,
The other birds never let you fly,
They're always nibbling on your head,
Never thought to ask them why,
No you never thought to ask them whySimon shook his feathers
and flew up in the sky,
The way his flock would make him walk,
it always made me cry,
I know you've flown a billion miles,
I've seen you in the skyHe was the bird with the candybar head,
The other birds never let you fly,
They're always nibbling on your head,
Never thought to ask them why,
No you never thought to ask them whyWhen I see them pecking on you in the rain,
I will chase them all away,
I will take you home,
and mend your broken body...Cause you're the bird with the candybar head,
The other birds never let you fly,
They're always nibbling on your head,
Never thought to ask them why,
No you never thought to ask them why
No you never thought to ask them why
