

Landslide

[Kirin J Callinan](#)

I road my boat
for a thousand years
with the river tide
searching for the ocean
I drifted downstream
the banks all closed in
I berthed at the next docks said take me for a landslide

At a previous port
in Spain as a child
I knew your face
it made me smile
we struggled then
as we suffer now
further downstream we'll be caught
by the trials of the landslide

Life is a landslide
we are dirt
falling with the landslide
It's a landslide
life is a landslide
there's a river of souls
but right here
it's a landslide

It's a landslide
life is a landslide
we are dirt
falling falling with the landslide
life it's a landslide
there's a river of souls
but right here it's a landslide

Dust and dirt
dust and dirt

Dust and dirt
dust and dirt
dust and dirt

sea sky and dirt
Sea sky and dirt
ocean and dirt
the stars are all dirt
the stars are all dirt

The stars are all dirt
and God is in the water
God is in the water
God is in the water
God is in the water
God is in the water
and hell is right here on earth
hell is right here on earth
hell is right here on earth

God is in the water
God is in the water
and hell is right here

Though we may walk the land
we're tied to the sea
moon pulls the tides
inside you and I

And under our souls
earth and sea glide
we are dirt
falling
