

Move It (Dance Mix)

Christina Aguilera

This one Can you feel it, feel the groove
Let the music take control and let your body move
Just relax and listen to the sound
Once the music takes you you will finally have found It will take you away to another state of mind
Where peace you'll find inside the sound
Just escape to a place
Troubles seem to flow away when you get away Get this party going on, the feel of the rhythm
Gotta, gotta make it strong, leave it going on
If you wanna get away and ease your mind now
Come on everybody stay and let the song take you away, yeah
Alright Can you feel it, feel the groove
Let the music take control and let your body move
Just relax and listen to the sound
Once the music takes you you will finally have found It will take you away to another state of mind
Where peace you'll find inside the sound
Just escape to a place
Troubles seem to flow away when you get away Get this party going on, the feel of the rhythm
Gotta, gotta make it strong, leave it going on
If you wanna get away and ease your mind now
Come on everybody stay and let the song take you away, yeah
