

Grave of Opportunity

Unearth

Time's venom boils
Every breath ticking towards torment
This carrier exposes our instability I will battle on
I must choose a throne to succeed
This domain in which I live
I'll battle on to carryout 'til the cycle ends its game I see the blood spilling out from the core
Dig my grave of opportunity
Time stalks us all
A scar filled test of who we are
Dig my grave of opportunity Downward I have gone
Still I bleed I won't die off
Downward I have gone
The end is yet to come Downward I have gone
Still I bleed I won't die off
Downward I have gone
The end is yet to come I will battle on
I will battle on Time's venom boils
Every breath's ticking towards torment
This carrier exposes our instability I see the blood spilling out from the core
Dig my grave of opportunity
Time stalks us all, time stalks us all
A scar filled test of who we are
Dig my grave of opportunity The end is yet to come
