Fold

JosÃ© GonzÃ¡lez

Taking time
To walk down all the aisles

Turning over every stone
Building new rulers but still haven't burnt any old

Please don't let me down this time
I've come a long way to just fall back into line

Keep both feet on a ground
While I change the wings

I promise one day I'll be coming around
From my cloud to see what it's all about

Please don't let me down this time
I've come a long way to just fall back into line

Please hold me back
If I tend to lose it and steer into old tracks

Please don't let me down this time
I've come a long way to just fall back into line
