

# Too Late

## At Vance

You still believe that you are innocent  
But all the pain you've caused will never end  
You're like a demon and I'm under your spell  
You promised the god  
But you gave me the bad  
And now you're alone  
Cause I'm gone[Chorus]  
Did you ever save your tears  
And did you fight against your fears  
Then would know the reason why  
My love for you has died  
Did you ever try to see  
Then you would still believe in me  
But it's time to face the truth  
That it's too late for love  
You promised the good  
But all you gave me was bad  
So now you're alone  
And I'm forever gone  
So now you're crawling to me on your knees  
I can't forgive you can't fulfill your needs  
I'll never trust in you again[Coda:] too late  
Too late[Solo][Chorus]
