

# Ain't No Doubt About It

## The Game

I just wanna touch ya, girl  
The way you move (the way you move)  
Oh you make me love it, yeah  
'Cause lady, you cool

That's the way (that's the way)  
You can move it baby (you can move it baby)  
Tell your girls (tell your girls)  
To come join our table (to come join our table)  
Don't you worry (don't you worry)  
Just keep movin' boobs (keep movin' boobs)  
'Cause you're the star (you're the star)  
Everybody looking at you (said looking at you)

Ain't no doubt about it, girl  
The way you move. yeah  
Ain't no doubt about it, hey girl  
Baby you cool.

Game, drop top bent-a-ley (bentley)  
Gucci belt buckle fresh out of italy  
I'm a baller, literally  
Haters are swine flu, you're killing me  
I'm looking down on you from where the ceiling be  
Me and my niggas swarm on you like the killer bees  
My chick riding shotgun, billie jean  
Half belizian half from the phillipines  
Niggas energy, is like they got the heavens  
Sick of me think they wanna nine milly me  
But they ain't for rat tat tat-tat tat  
My bullets sing like their registered to ascap  
Need I say more out in singapore  
Everything I do exotic I don't need to bring a broad  
Mr. red carpet, I don't do awards  
You want it I done it 5 million on tour, offshore.

I just wanna touch ya, girl  
The way you move (the way you move)  
Oh you make me love it, yeah

Cause lady, you cool!

That's the way (that's the way)  
You can move it baby (you can move it baby)  
Tell your girls (tell your girls)  
To come join our table (to come join our table)  
Don't you worry (don't you worry)  
Just keep movin' boobs (keep movin' boobs)  
Cuz you're the star (you're the star)  
Everybody looking at you (said looking at you)

Ain't no doubt about it, girl  
The way you move  
Ain't no doubt about it, hey girl  
Baby you cool

Yo pharrell, I'm ri-ri-diculous  
So so sick with it  
You can call me cancer but I don't smoke cigarettes  
Come through in a 'rarri same color as licorice  
If I ain't with her my b\*\*ch like "this my nigga's s\*\*t"  
Haters beware, I can see clear  
Through the lens on these black louis vs yeah  
Something 'bout mary, make me wanna blow up  
And b got the dizzy like for me when I show up  
Whip game crazy I call it all kinda  
You a big fish to swim the piranhas  
Used to call me "dope game" when I came from jose  
Now I play the roosevelt and I cop rose  
Niggas be like yo you lease that? no way!  
California slim license plate st. tropez  
Eat at a table full of toupees, lobsters  
Been a mobster since the two-way holla

I just wanna touch ya, girl  
The way you move (the way you move)  
Oh you make me love it, yeah  
'Cause lady, you cool

That's the way (that's the way)  
You can move it baby (you can move it baby)  
Tell your girls (tell your girls)  
To come join our table (to come join our table)  
Don't you worry (don't you worry)  
Just keep movin' boobs (keep movin' boobs)

'Cause you're the star (you're the star)  
Everybody looking at you (said looking at you)

Ain't no doubt about it, girl  
The way you move  
Ain't no doubt about it, hey girl  
Baby you cool
