

# Symphony

## Telekinesis

As I awoke and my heart it did choke  
on the scene that was set in our bed  
Was it a dream or are you just a scheme  
I don't care I'm alive and I'm well  
You are my love and you are above any  
women that I've ever met  
I do believe that  
we are machines and we  
search till our parts intersect  
Now I know that  
there's so much more that  
I didn't get to say  
All my life for once I was right  
and and I'll make it all better again  
But now I rest  
Now I can hear  
what was once loud and clear  
is a symphony heard overhead  
You are the notes coming  
out of my throat like I'm  
breathing a book that you read  
All the bells and orchestra swells  
are filling the holes in our heads  
Big kettle drums and  
violin strums will play like a sort of a hymn  
When we are wed
