

# Boy Inside the Man

## Tom Cochrane & Red Rider

So long so long so long he's been away  
So long so long so long he's back again When I turned seventeen  
We had passion, we had dreams  
Thought the love we were fighting for  
Was something holy, something more When I turned twenty-one  
we were outside on the run  
When I walked out with my girl  
We went halfway around the world  
CHORUS  
I dreamed I saw her standing there  
Running for the boy inside the man  
I was hit hard by the light so bright it burned  
All at once I knew she'd understand  
Boy inside the man  
The boy inside the man  
When I turned twenty-five  
We were hungry, we had drive  
When I turned much older then  
When the boy was lost in pride Now I just turned thirty-one  
I have lost and I have won  
Still I've kept my dreams alive  
'Cause the boy will never die  
CHORUS  
Ah do you understand  
CHORUS The boy inside the man  
The boy inside the man  
So long so long so long  
You been away  
So long so long so long  
You're back again  
Sister cool this face  
As if it's carved in stone  
Don't leave me in this place  
Like a boy without a home (repeat)  
Boy inside the man
