

Dust

Fields of the Nephilim

Lord, I wanna watch it rain
I got a heat since love, as she breaks
Dust, we fade the scene
Gotta reason in peace, now explain Feelings go on and on
Killing, it's all man made
The rhythm of life is all too strong, so we burn it Come down, right upon the train
In a swirling pool of blood and brains
Well, that's fate, my mind is made
Be a woman a child, a child's masquerade Feelings go on and on
Killing, it's all man made
The rhythm of life is all too strong, so we burn it
The Western Heroes Blood, I've walk the high wire
I had to walk real high to see today
Dust, fade without a name
When I finish my war, I'll fade the scene Feelings go on and on
Killing, it's all man made
The rhythm of life is all too strong, so we burn it
The Western Heroes I walk the high wire
