

Save A Line

Mat Kearney

When the train pulls out at dawn
Will it be something that's gone
In the rubble and the steam
Will you save a line for me
When my back's against the wall
And there's no one else to call
With the bell down on me
Will you save a line for me (a line for me)
There's no easy way out
It's all blowing north while we're headed south
I hear the sound
Cause all I need is you
All I need is you tonight (tonight)
Nothing else compares
Whatever we go through
Our love will see it through to light (to light)
Would you save a line
When I can't see right from wrong
And I hardly hear you call
Through the rubble and debris

Will you save a line for me
When I'm out here all alone
With no hand to pull me home
Over mountains and seas
Will you save a line for me
Cause there's no easy way out
It's all blowing north while we're headed south
I hear the sound
Cause all I need is you
All I need is you tonight (tonight)
Nothing else compares
Whatever we go through
Our love will see it through to light (to light)
Would you save a line
In the avalanche am I on your side
In a hurricane I'm calling out your name (your name)
In song slipping out to the sea
Singing out you save a line

Would you save a line for me

Save a line for me

Save a line for me
