Boomerang

Lucy Schwartz

Waiting, waiting,
Heartbroken and frustrated
Hard to get around without your loveFeeling, feeling,
Tired of this endless reeling
Hard to get around without your loveIm immune to the symptoms of romantic affliction
But Im trying to see lightEvery time you come around again
I only want to say goodbye
Every time you say youre leaving again
I want you back just like my
Want you back just like myBoom boom boomerang
Boom boom boomerang
Boom boom boomerang
Boom boom boomerangI toss you, throw you
Still you come back now dont you
Hard to get around without your loveI told you
It wont do
So why do I have to hold you
Hard to get around, loveIm immune to the symptoms of romantic affliction
But Im trying to see lightEvery time I come around again
I only want to say goodbye
Every time you say youre leaving again
I want you back just like my
Want you back just like myBoom boom boomerang
Boom boom boomerang
Boom boom boomerang
Boom boom boomerang
Boom boom boomerang
Boom boom boomerang
Boom boom boomerang
Boom boom boomerangSo I went to the doctor
Took a look at my heart
He said we cant be together
But never to get too far apart
Never to get too far apart(Tap dance solo)Every time you come around again
I only want to say goodbye
Every time you say youre leaving again
I want you back just like my
Want you back just like myBoom boom boomerang
Boom boom boomerang

Boom boom boomerang
I want you back just like my
Boomerang
Boom boom boomerang
Boom boom boomerang
Boom boom boomerangMmmhmm and dont come back!
