

# Counting On Me

## Howie Day

I see your face in the sun by a streetlight  
By the colors that glow in my eyes  
And I see them burning bright  
And I know where I'm supposed to be  
Counting on me, you're counting on me  
You've got me tied by the wrist,  
by the shoulder  
By the blood that runs under my skin  
And I see my hands turn white  
And I know that I won't get free  
You're counting on me, you're counting on me  
Counting on me, counting on me  
I never knew that I could be this way before  
Like I was living in your hallway  
And you opened the door, opened the door  
And I can feel a change will come in our love, love  
And I can feel a change will come now  
Tell me you find, tell me you find it here  
You're counting on me, you're counting on me  
Can you count on me? You're counting on me  
And I know that I won't, yes, I know that I won't  
Now I know that I won't get free
