

Land of Dreams (with Los Lobos & Bebel Gilberto)

[Rosanne Cash](#)

I heard you calling from the start
A river runs through both our hearts
A thousand shades of something new
I cannot wait to play for you So play your songs and make them real
There's a place for all we feel
And it's closer than it seems
Come and find your land of dreams Land of dreams, land of dreams
Come and find your land of dreams
And it's closer than it seems
Come and find your land of dreams The world is smaller in our eyes
The city streets and moonlit skies
The shining waves and evergreens
I will give you everything You can hear the bells and strings
Just wait until you make them ring
And it's closer than it seems
Come and find your land of dreams Land of dreams, land of dreams
Come and find your land of dreams
And it's closer than it seems
Come and find your land of dreams Land of dreams, land of dreams
Come and find your land of dreams
And it's closer than it seems
Come and find your land of dreams
