

# Time To Stain

## He Is Legend

You left a lot of red  
for me to explain  
when you left me for dead  
mangled and maimed  
i can't get out of bed  
i can't leave my room  
i got some time to spend  
i guess i'll start licking my wounds  
i hope i cross your mind  
you're on mine all the time  
i hope you find what you need  
i swear it's me  
i'm finally over it  
im out from under the pain  
difficult to forget  
a memorable name  
i don't have time for this  
no time for you  
you left a nasty stain  
that's terribly hard to remove  
i hope i cross your mind  
you're on mine all the time  
i hope you find what you need  
i swear it's me  
And i would do it all over again  
cause what's a life without a little sin?  
i hope i cross your mind  
you're on mine all the time  
i hope you find what you need  
i swear it's me
