

Feels Like Heaven

[George Huff](#)

Got a feeling that I just cant hide
When you smile, yeah, makes me come alive
You light up my day when your coming my way
All I do is look right in your face I got one thing to say Feels like Heaven to me nothing else matters
I got all that I need looks like the love of a lifetime
I'm making you all mine believe me you set my soul free
Feels like Heaven to me Come with me and I'm gonna take you there
To a place that love is everywhere
We'll shine like the stars wherever we are
'Cause you already got every piece of my heart and your making me Feels like Heaven to me nothing else matters
I got all that I need looks like the love of a lifetime
I'm making you all mine believe me you set my soul free
Feels like Heaven to me From the moment I met you
Heaven came down to Earth and I got a taste of
The goodness to come
And there's nothing else I can do but tell you Feels like Heaven to me nothing else matters
I got all that I need looks like the love of a lifetime
I'm making you all mine believe me you set my soul free
Feels like Heaven to me Feels like Heaven to me nothing else matters
I got all that I need looks like the love of a lifetime
I'm making you all mine believe me you set my soul free
Feels like Heaven to me Oh, feels like Heaven to me
