Warning

Autre Ne Veut

Whats this thing that, that I cant explain?
Just to feel like, more like a warning
And this thing that Im telling you I cant explain
Just a feeling like, more like a warning
Like a warningOn/off, it goes, it never gets better baby
Oh no no no no and it never will
On/off, it goes, it never gets better baby
Oh no no no no and it never willWhats this thing that, that I cant explain?
Just a feel like, more like a warning
And this thing that Im telling you I cant explain
Just to feel like, more like a warning
Like a warning, like a warning
Warning, warning, warningOn/off, it goes, it never gets better baby
Oh no no and it never will
On/off, it goes, but it never gets better baby
Oh no, it never willIn a time that you said that your world was on fire
I would never wanna see your face again
In the world that your heart is screaming, find it Neverland
I was never low, lets see the face againAnd I run and tell you what I know you damage me
I would never wanna see your face again
In all the flames of the world that died ahWhats this thing that, that I cant explain?
Just a feel like, more like a warning
