

Alive (Unplugged)

The Dirty Youth

See the girl, eyes are wide

So naive, dead inside

Would you cry for her

Would you take her pain away

Would you die for her

Would you brighten up her day No more regrets, no more regrets

I can't forget These could be the best days

We're having it all our way

Saying things we must say

To feel so alive

Its brighter than the sunlight

Dancing like its all right

Celebrating this night

To feel so alive

I feel so alive I don't know how it feels to be so insecure

That you take out your problems on cocaine and beer

You say to yourself that your really okay

It's killing me now just to see you this way

Now I think to myself is this fake is this real

All the diamonds and rubies and lies you conceal

Are you lost in yourself, are you feeling confused

Reality sinks and you know you've been used No more regrets, no more regrets

I can't forget These could be the best days

We're having it all our way

Saying things we must say

To feel so alive

Its brighter than the sunlight

Dancing like its all right

Celebrating this night

To feel so alive

I'm feellng so alive So, I've gotta tell you to, wrap your arms around your soul

Wake up, now

Break out, now

You will lose yourself and everything No more regrets, no more regrets

I can't forget These could be the best days

We're having it all our way

Saying things we must say

To feel so alive

Its brighter than the sunlight

Dancing like its all right
Celebrating this night
To feel so alive
I'm feeling so aliveI'm feeling so alive
I feel so alive
I'm feeling so alive
I feel so alive
