Like Never Before

Evidence One

Inside my head, Inside my soul
Something returned, Out of controlFeels like I'm lost in my own illusions
Day after day after day
Can't hide this feeling of manic confusion[CHORUS:]
Calling on the world, I can't take it back
All I've ever done,
(Was) based on my good intensions
Calling on to you, please don't close the door
This time it's real, just Like Never Before!Inside my head, Making me sweat
Making me feel I will never forgetFor the first I will beg for forgiveness
Time after time after time
Don't leave me stranded, stranded and helpless[CHORUS]Love, don't push me away,
Don't leave me bleeding
Love, this time I'll stay
I won't be cheatin[CHORUS X2]Like Never Before!
