Show Me Colours

Masterboy

Chorus:
Show me colours of your life
beautiful and nice
Show me colours of your life
heat or cold as ice
Show me colours of your life
beautiful and nice
Show me colours of your life
the heat or cold as ice
colours of me and the colours of you
are the colours we see - oh yeah yeah yeah
colours of me and colours of you
are the colours we see - oh yeah yeah yeah
I'm going out on a saturday night
just got paid and I feel allright
I drive my car down the street
turn on the music and I feel the beat
I see this girl standing there
I step on the brake like I just don't care
come on baby, let me take you out
show me colours that the world's about
like a vision of love with you
it's a vision forever new
like a vision of love we see
it's a vision of you and me
Repeat chorus
I took your hand walked in the place
your sexy eyes and your pretty face
the laser beam and the vary-light
bring different colours to the night
I'm checking you out all I see is you
I believe I fall in love so true
all I want is to hold you tight
show me colours of the night
like a vision of love wit you
it's a vision forever new
like a vision of love we see
it's a vision of you and me
Repeat chorus

Ladadi ladada di dam
