

Call Me

Kimbra

Where do you walk on a Saturday?
I see you hurrying to get somewhere
Stop and smell the roses
Stop, get closer feel it in the air
(Yeah you)
Can I hold out my hand?
Make you listen to me, help you understand
Why you make me high
Can I tell you all the reasons why? Won't you slow down I
Just need a moment of your time It's electric baby
I could be the one or I could be just crazy
(I know you've been hurt before)
I can tell it in the way you're wanting more
I know the game you're playing
I wanna break the rules, stop your questioning Call me
Nothing's gonna bring us down
Nothing's gonna bring us down (Come bring your love around me)
Call me
Nothing's gonna bring us down
Nothing's gonna bring us down (Come bring your trust around me)
Call me
Nothing's gonna bring us down
Nothing's gonna bring us down (I won't let you stay lonely)
Call me
Nothing's gonna bring us down
(Come bring your love) When will we talk on a Saturday?
You're always hurrying to get somewhere
Striking all your poses
You think I don't notice that you're everywhere?
Yeah you
Can I hold out my hand?
Make you mine forever, all the money I could spend
Looking out for you
Let me take you out where you want to (I'm gonna hold you I got nothing to lose tonight I'm all tight)
I wanna let go with you
Wait for a moment alone with you
(See that golden light
That shines each time we walk by?)
It's electric baby

Come and take a chance on all the dreams you're dreaming
Nothing's gonna bring us down
Nothing's gonna bring us down (Come bring your love around me)
Call me
Nothing's gonna bring us down
Nothing's gonna bring us down (Come bring your trust around me)
Call me
Nothing's gonna bring us down
Nothing's gonna bring us down (I won't let you stay lonely)
Call me
Nothing's gonna bring us down
(Come bring your love) Nobody understands
I got love but I ain't got plans
You make me high
Can I tell you all the reasons why?
The night is nigh and it's coming fast
Feel like little kids at school skipping class
Come break the law with me
Listen to me, I'm the one you're really waiting for
Nothing's gonna bring us down
Nothing's gonna bring us down
Call me
Nothing's gonna bring us down
Nothing's gonna bring us down
Call me
Nothing's gonna bring us down
Nothing's gonna bring us down
Call me
Nothing's gonna bring us down
(Come bring your love) I got what you want, baby don't move, when they move along
Get tight, get it tough, everyone's fighting for the one they want
I got what you need, baby don't move, when they come for me
Get tight, get it tough, everyone's fighting for the one they want
I got what you want, baby don't move, when they move along
Get tight, get it tough, everyone's fighting for the one they want
