

Keep Your Love Alive

Bonnie Tyler

(giorgio moroder/ tom whitlock)

Producer for bonnie: giorgio moroder When it's getting good

Then you better be safe

'cause a mind like yours is too good to waste

Keep your love alive - keep your love alive A body like yours

It would be a crime

If you push it to the edge of the borderline

Keep your love alive - keep your love alive Gotta be careful when you're taking a chance

You gotta take care - it's a new romance

Keep your love alive - love alive It really never was about a one night stand

It's a love for life so you better think twice

Keep your love alive - love alive Love for life x3

You'll be alive tomorrow if you're safe today

What better way to show you care for me Can't ignore the facts when they're in your face

It's time you took responsibility

Keep your love alive - keep your love alive 'cause you know the love we have is always gonna be

You know I want you and you want me

Keep your love alive - love alive Love for life x3

You'll be alive tomorrow if you're safe today

What better way to show you care for me When the love is right

You gotta say I want you here inside my life

Living for the light that's coming from within

I want to take good care of you - I love you
