## **Deify**

## **Disturbed**

All my devotion betrayed

I am no longer afraid

I was too blinded to see

How much you've stolen from meYou wanna know why I feel so horrified?

I let my innocence die

You wanna know why I, I can't be pacified?

You made me bury something, I won't be sleeping tonightI only wanted the blessing made

Now I've been labeled a renegade

It seems so clear now what I must do

You're no immortal, I won't let themDeify you

They view you as the new messiah

Deify you

Renew belief in some demented manYou wanna know why it seems the passion has died?

We've all been living this lie

You wanna know why my, my will's been fortified?

You've made me hunger again, good luck sleeping tonightI only wanted the blessing made

Now I've been labeled a renegade

It seems so clear now what I must do

You're no immortal, I won't let themDeify you

They view you as the new messiah

Deify you

Renew belief in some demented manAll my devotion betrayed

I am no longer afraidAll my devotion betrayed

I am no longer afraid

I was too blinded to see

How much you've stolen from me

(I was too blinded to see)All my devotion betrayed

I am no longer afraid

I was too blinded to see

How much you've stolen from meDeify you

They view you as the new messiah

Deify you

Renew belief in some demented manDeify you

(All my devotion betrayed)

They view you as the new messiah

(I am no longer afraid)Deify you

(I was too blinded to see)

Renew belief in some demented man

(How much you've stolen from me)
