## House of Pain

Verse:

Cockni o' direChorus:

Killa rhyme klik keeps the function live  
Heads treat my lovely on the 1, 2, 5  
I might socialize if I dip and dive  
'cause it's the daily routine on which I thriveI got platoons, I got regiments, I got battalions  
I got ponies, I got mares, and I got stallions  
I got planets, I got moons, and I got stars  
I got jewelry, I got loot, plus I got cars  
I got family, I got foes, I got an ally  
It's the e-man, you got priests and a rabbi  
I got knowledge, I got wisdom, I got overstandin'  
I got culture, freedom, you got a weakly meat  
You have bless, you have blood, you have a sacrafice  
You have guilt, you have shame, you got your soul on ice  
It's a control device, can't you see my earth is in orbit  
Lucy's holdin' product, that's why you can't afford itChorus
