Burnin'

Nichole Nordeman

Started rubbing sticks together
Thought a spark would take forever
Ever dreamt this fire would appearMoses saw the Bush in flames
And heard the branches speak his name
I wonder if he felt this kind of fear'Cause I'm burnin', I'm burnin'
And I know I'm gonna blister in these flames
But I'll stay here 'til this smoke clears
And I'll find you in the ashes that remainUsed to be that I could say
My faith was one arm's length away
From any flame that ever felt too warmAsked for matches but I received
A gallon full of gasoline
Now my cozy campfire days are goneAnd I'm burnin', I'm burnin'
And I know I'm gonna blister in these flames
But I'll stay here 'til this smoke clears
And I'll find you in the ashes that remainKnock with caution at the door
They said, "Beware of what you're praying for"So I'll stand with my whole desire
In the middle of this forest fire
'Till I've nothing left to show
And new life begins to grow'Cause I'm burnin' and I'm burnin'
And I know I'm gonna blister in these flames
But I'll stay here 'til this smoke clears
I'll find you in the ashes that remain, remain
