

Watchin' You

Kiss

Limpin' as you do and I'm watchin' you
And you don't really know just what to do You don't really know
You don't really know
You don't really know what to do Well I'm standin' here, not quite aware
And I'm tryin' baby, tryin' not to stare 'Cause everybody else is here
Yes, everybody else is here
Everybody else is here watchin' you
