

Fly (feat. Fabulous)

Jessica

I won't lose (Fabulous)
Somebody tell em I won't lose
Low so I won't lose (The young OG)
Somebody tell em I won't lose Invisible, push through the fog
I had to find my way (yeah)
A glow of light,
A spark of hope If you imagine it you'll find
You're reaching for all things
To follow your dreams
But nothing will stand in your way You're not far, you're close
So Stand up for yourself
It's written in the sky Just spread your wings
Reach for your dreams
There's no mountain that's hard to move Take a chance and try
You would never know
You're a hero, you can fly (you can fly) Whoa...
You're a hero, you can fly Whoa...
You can fly Unthinkable, best is to come
The light is shining so bright now
No looking back, keep pressing on (hold on)
Cause your wings are made to fly You're reaching for all things
To follow your dreams
But nothing will stand in your way You're not far, you're close
So Stand up for yourself
It's written in the sky Just spread your wings
Reach for your dreams
There's no mountain that's hard to move Take a chance and try
You would never know
You're a hero, you can fly (you can fly) Whoa...
You're a hero, you can fly Whoa...
You can fly I don't plan on breaking down
I don't plan on falling down
I won't lose, I won't lose
Oh no no no no no Yeah, let's go Jess
You should've never doubted yourself
Matter of fact you should be proud of yourself
Coz you had to find a way, Go About it yourself
Nobody gave you direction, Had to route it yourself
And you never got lost, Losing not an option

No time for Ls, No time to fail
Winning like Steph Curry, And them we warriors
Haters wanna see me in a Crown Victoria
But I'm in a Benz AC on 70
Won't lose my cool, Gotta move cleverly
Chess not checkers, playing it with strategy
Me and Jessica, that's a win automatically Just spread your wings
Reach for your dreams
There's no mountain that's hard to move Take a chance and try
You would never know
You're a hero, you can fly (you can fly) Whoa...
You're a hero, you can fly Whoa...
You can fly
