

# Dance With Me

## Peter Brown

You gotta keep on making me high  
You gotta keep on making me high  
You gotta keep on making me high  
You gotta keep on making me highIf you're feeling sad and blue  
    Come on and dance with me  
    I can make your dreams come true  
Come on and dance with meLadies, get up off your seats  
    Come on and dance with me  
    Gentlemen, get on your feet  
    Come on and dance with me  
    Say the word and I'll  
    Summon the band with my hand  
    Let your minds and  
    Your bodies be free  
    Dance with meYou gotta keep on making me high  
    You gotta keep on making me highIf you feel that you  
        Like what you see  
    Dance with meYou gotta keep dancing  
        Cause it's making me high  
    You gotta keep, keep dancing  
        You gotta keep dancing  
        Cause it's making me high  
    You gotta keep, keep dancing  
        You gotta keep on making me high  
        You gotta keep on making me high  
        You gotta keep on making me high  
    You gotta keep on making me highIf you're feeling sad and blue  
        Come on and dance with me  
        I can make your dreams come true  
    Come on and dance with meSay the word and I'll  
        Summon the band with my hand  
        Let your minds and  
        Your bodies be free  
    Dance with meYou gotta keep on making me high  
        You gotta keep on  
        You gotta keep on making me high  
        You gotta keep onLet your minds and  
        Your bodies be free  
        Dance with me
