

Come Back Down (feat. Sara Bareilles)

[Greg Laswell](#)

Come on
All your good friends are here
Waiting this one out
You've got to come back down
You've got to come back down

Look around you
You're the only one
Dragging this out
You've got to come back down
You've got to come back down

All of you wallowing is unbecoming
All of you wallowing is unbecoming

You've got take on your own from here
It's getting pathetic
And i'm almost done here

You've got take on your own from here
It's getting pathetic
And i'm almost done here

What you set out to kill off
Has been gone sometime now
You've got to come back down
You've got to come back down

Head out any further
And you might just forget how
You've got to come back down
You've got to come back down

All of you wallowing is unbecoming
All of you wallowing is unbecoming

You've got take on your own from here
It's getting pathetic
And i'm almost done here

You've got take on your own from here
It's getting pathetic
And i'm almost done here

All of you wallowing is unbecoming
All of you wallowing is unbecoming

You've got take on your own from here
It's getting pathetic
And i'm almost done here

You've got take on your own from here
It's getting pathetic
And i'm almost done here
(you've got take on your own from here)

4x you've got to come back down
(you've got take on your own from here)
4x you've got to come back down
