

# Radio Lover

George Jones

He kisses her goodbye and heads for the radio station  
Oh, he hates to leave her but he's got another show to do  
He knows she gets lonely so he lets her know he's thinking about her  
And though millions are listening she knows who he's talking to  
Coming to you live like I do every night  
From the heart of your radio  
I play a little sad and I play a lot of glad  
And a few old cheating songs  
Here's hoping everybody out in radio land  
Finds a love just as true as mine  
Goodnight angel sleep tight darling  
And close your pretty brown eyes  
When the show is over your radio lover  
Will be home by your side  
She's laying in bed as her DJ tells  
Her that he loves her  
It would break his heart if he knew  
She wasn't there alone  
She knows when to cheat  
And when to tell her lover to leave her  
She knows they'll be safe  
Just as long as his show goes on  
He planed a surprise for the night

Of there first anniversary  
He taped his show just so  
He could be home with her  
The radio was playing  
And as he walked in on her and her lover  
He heard himself saying  
The last words that they ever heard  
Coming to you live like I do every night  
From the heart of your radio  
I play a little sad and I play a lot of glad  
And a few old cheating songs  
Here's hoping everybody out in radio land  
Finds a love just as true as mine  
Goodnight angel sleep tight darling  
Close your pretty brown eyes

When the show is over your radio lover  
Will be home by your side  
Hey I'm coming to you live like I do every night  
From the heart of your radio  
I play a little sad and I play a lot of glad  
And a few old cheating songs  
Here's hoping everybody out in radio land
